Large	10-3/8 in./26.4 cm	5-1/4 in./13.3 cm	24 oz./720 cc

Free Flow™ Urostomy Pouch

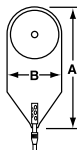

DISPOSABLE, easy-to-apply, self-adhering pouch for ureterostomy and ileal bladder diversions. Free Flow stem allows unobstructed flow — even if pouch twists. Ideal for post-operative use. (Available with non-return anti-reflux MUPO-9F). Starter hole of 1/2" can be easily cut up to 2-1/8".

MUPO-9
Available in clear.

MUPO-9X
with drain
plug outlet

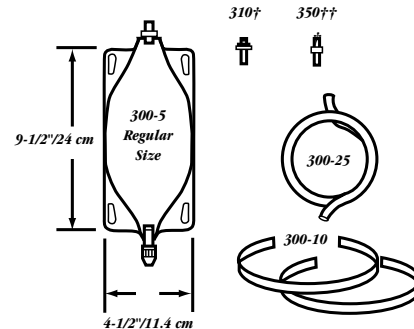

Pouch Size	Length "A"	Width "B"	Capacity
Pediatric	7-1/2 in./19.0 cm	4-1/8 in./10.5 cm	7 oz./210 cc
Adult	9-3/4 in./24.8 cm	4-5/8 in./11.8 cm	15 oz./450 cc

Also available:

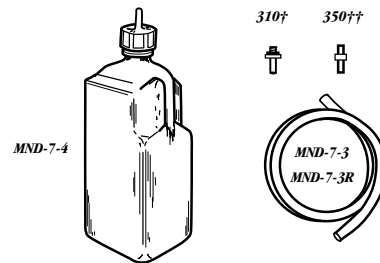

Leg Bag Kit with Regular Size Leg Bag MLB-300

Adjustable, non-binding Velcro leg straps. Lightweight. Leak-proof. Built-in flutter valve to prevent backflow. Capacity is 17 oz./480 cc. A large leg bag (35 oz./1 liter) is also available (12-1/4" x 5"/31.1 cm x 12.7 cm).

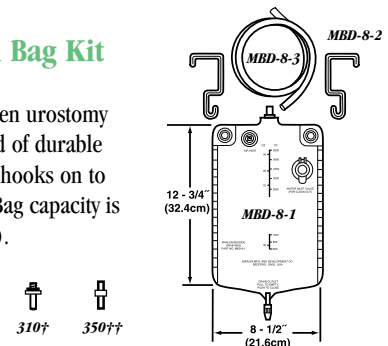

Night Drainage Kit — MND-7

For use with all Marlen urostomy pouches. One-half gallon plastic container collects drainage while user is sleeping. Eliminates the need for frequent emptying of pouch. Available with 6-foot plastic or rubber tubing.

Bedside Drain Bag Kit MBD-8

For use with all Marlen urostomy pouches. Constructed of durable plastic. Conveniently hooks on to the side of the bed. Bag capacity is 90 ounces (2800 cc).

† Screw connector with washer seal for use with MAF and MU-3R pouches
†† Plastic connector for use with MUPO-9X
